EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Kean Decarlo on December 18, 2003.

The application has been amended as follows:

In the Specification:

In the abstract, the final three complete sentences have been deleted, beginning with "It is emphasized..." in line 14 and ending with "...1.72(b)." in line 18.

2. The following is an examiner's statement of reasons for allowance: The prior art of record fails to suggest a motivation for using an upper aeration chamber and lower clarification chamber in a wastewater treatment tank, wherein the chambers are separated by a common inclined portion having an opening and water is aerated in the upper chamber followed by clarification in the lower chamber, in combination with the other features of the independent claims. The closest prior art to Fischer (2,825,691) fails to disclose the opening near the bottom of the tank or the inclined portion being connected to the sidewall of the tank.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The additional references listed on the attached PTO-892 form disclose wastewater treatment and clarification arrangements.
